It is best to take your children to your local or preferred health center if they are unwell and do ask the doctors questions and be informed about your child's care. 7. Be sensitive to your child's emotional and mental health: Health is holistic and an all-round healthy child is also balanced emotionally and mentally. 8. Model positive behaviors: Your child watches and learns more from what is seen than what is heard so it is important to 'walk the talk'.

If you have children, the odds that they are going to use holistic therapies depend heavily on one factor: you. Do you use holistic (or, as some call them, complementary or integrative) therapies for your own wellbeing? Are you, for example, a meditator, a yoga practitioner, a chiropractic patient, or a user of dietary supplements? Then your children probably will be, too.

Ideally, the talk takes place while the parents are healthy and mentally capable. Children should explain their desire to protect their parents and ask them to provide a list of all their financial resources, including bank and brokerage accounts and safety deposit boxes. They should also list any financial and tax advisers.
