All Recipes - Diabetes Food Hub

There are a few types of vegetarian diets. A lacto-ovo-vegetarian diet, for instance, is based on grains, vegetables, fruits, legumes (beans), seeds, nuts, dairy products, and eggs. Vegan diets, another form of a vegetarian diet, exclude all animal products including eggs, dairy, and anything else of animal origin such as honey. For people with type 2 diabetes, following a vegetarian diet may seem a bit tricky because excluding animal products like meat, fish, and fowl can limit protein options.

How to Be a Vegetarian With Type 2 Diabetes

Foods high in starch include: Starchy vegetables like peas, corn, lima beans and potatoes. Dried beans, lentils and peas such as pinto beans, kidney beans, black-eyed peas and split peas.
