### **The figure : an approach to drawing and constructing ...**

The classical approach. Due to our ignorance about the outcome of, say, a cast die, and because there is no indication for us to think one outcome more likely than any other, we must give them all an equal probability. The probability of an event A (written as  $P(A)$  for example, casting an even number with a die) is defined as the number of favorable outcomes ( $n$ , or 3 - the numbers on a dice that are even) divided by the number of possible cases ( $m$ , or in this example 6, the number of ...

Transformer data is often not available in this format. Most often, an equivalent circuit, as shown in Figure 6-2, is assumed for the transformer and the parameters  $L_1$ ,  $L_2$  and  $aL_{12}$  are determined from open and short-circuit tests.. For example if we neglect the resistance in the winding, a short circuit on the secondary side (i.e.  $V_2 = 0$ ) causes a current to flow (assuming  $aL_{12} \gg L_2$ ).

### **The Classical Approach**

Figure-ground perception refers to the tendency of the visual system to simplify a scene into the main object that we are looking at (the figure) and everything else that forms the background (or ground). The concept of figure-ground perception is often illustrated with the classic "faces or vases" illusion, also known as the Rubin vase.

Masterclass – Emotive Approach to Painting the Human Figure. In this Oil Painting Masterclass, Instructor will discuss both an analytical and emotive approach to painting the human figure with an emphasis on color and value relationships in a related atmosphere. The class will consist of a single long pose in both cool and warm light.

### **Steven Assael - Emotive Approach to Painting the Human Figure**

Throughout the prosperous 1960s, the US did the classic things that helped the world to become more dollarized. For example, US banks rapidly increased their operations and lending in foreign markets.
