### The Luminous Portrait Capture Beauty

6. Aim to capture emotions and natural smiles. The best portrait photos tend to look natural, which requires natural poses, but also natural expressions. Now, when it comes to encouraging natural expressions, there's no one-size-fits-all approach.

### 7 Fall Portrait Photography Tips (for Outstanding Results)

In photography, exposure is the amount of light per unit area (the image plane illuminance times the exposure time) reaching a frame of photographic film or the surface of an electronic image sensor, as determined by shutter speed, lens aperture, and scene luminance. Exposure is measured in lux seconds, and can be computed from exposure value (EV) and scene luminance in a specified region.

Thomas Gainsborough's Portrait of Mr and Mrs Andrews presents the estate of a recently married couple. While the figures play a primary role in the piece, the landscape is also in focus. According to the National Gallery, "the emphasis on the landscape here allows Gainsborough to display his skills as a painter of convincingly changing weather and naturalistic scenery, still a novelty at this ...
