Economic Recovery. Dead firms walking: The zombification of our companies Banks need to be recapitalised and forced to publicly report bad loans, to avoid creating zombie firms that are unable to cover their debt-servicing costs out of the profits they generate.. OPINION: Over the past decade many countries have experienced persistently low inflation and short-term interest rates, while long ...

Dead Firms Walking: The Zombification Of Our Companies

By zombie idea, they refer to ideas which have been unsuccessful at achieving intended goals, yet still survived in public policy discourse. Economics. The economist John Kenneth Galbraith noted that "trickle-down economics" had been tried before in the United States in the 1890s under the name "horse-and-sparrow theory", writing:

Trickle-down economics - Wikipedia

Monetary economics is the branch of economics that studies the different competing theories of money: it provides a framework for analyzing money and considers its functions (such as medium of exchange, store of value and unit of account), and it considers how money, for example fiat currency, can gain acceptance purely because of its convenience as a public good.

With respect to the views of dead thinkers, answers to many particular questions are often interpretive in Ronald Dworkin's sense: such answers must attempt (1) to fit the materials to be interpreted and (2) to justify them, that is, to put them in the best constructive light. What looks like (1), or what purports to be (1), is often (2).
